Wrestling Match All To The Good

The wrestling match last Friday night at the Skating rink was a disappointment in one sense of the word to the large crowd that attended, at the same time it was one of the best matches that has ever been seen in Wrangell. The preliminaries between "Mysterious Billie" and "Gumboot Kelly" was all to the good in a fast three round boxing contest that broke with honors even.

After which came the main event of the evening the wrestling match of Ben Galentin and Eddie Lynch, which by all the rules of wrestling was won by Lynch. The wrestlers came together and after an hour and thirty-eight minutes of wrestling Lynch secured the only fall of the match, but although the fall was secured off the mat the referee gave the decision to Lynch and as such it should stand. After a ten minute intermission the wrestlers were called back and although Galentin's shoulder was badly injured they did some fast work until time was called.

The boys were both in the best of condition and the match was worth the price of admission of any ones money and the public sentiment is that the match belongs to Lynch by right of his fall, the only one secured during the two hours, and should the boys get together again they are both

assured a good following.

A very delightful dance was given after the match that was thoroughly enjoyed by all present.

Ketchikan Term

October 13th

A term of the district court will convene in Ketchikan on October 13th and from all indications Judge Fred M. Brown of Valdez will be called upon by the attorney general to preside.

The grand jurors report October 13, and the petit jurors on the 15th. The following is the list:

Grand jurors—R. L. Petty, M. D. Ikes, Thane Forrey, F. L. Bassett, Carl Berg, Oscar Liebrant, J. C. Barber, Peter Shook, William Gans, Wm. Strong, all of Ketchikan; Earl West, H. Hofstad, Chas. Fallousbee, Claud Blackington, Frank Clark, all of Wrangell; H. R. Gould of Sulzer.

Petit jurors—F. S. Burkhardt, W. H. Patching, W. Brown, W. B. Bell, R. S. Hall, J. J. Daly, J. Gustafson, A. R. McDonald, all of Ketchikan; Melville Marshall, F. B. Leonard, N. M. Tate, Chas. Bryant, C. E. Webber, F. S. Stackpole, W. Royalty, S. Berg, Jr., J. Matle, J. Running, M. Katzenmeyer, Martin Hofstad, all of Wrangell; John Thompson, C. H. Bordwell and Peter Jorgenson of Petersburg and S. Gooley of Portland City.

Another New Gold Strike

Representative Milo Kelly of Knik, brings authentic news of a new and important gold place strike to the Westward. The location of the very latest which promises to out-rival the Chisana in interest, is near the headwaters of the Matanuska and Taslina rivers, with sources close together but the waters of which reach the ocean at points far apart. Pay has been located on two streams, the one called Albert creek, being a tributary of Crooked creek, which in turn is a tributary of the Copper river. The other is known as Alfred creek and is a tributary of the Matanuska river. Both streams head in the same hill and almost against each other and flow in opposite directions.

Mr. Kelly, who is a member of the House of Representatives from the Third Division.

"The strike," said Representative Kelly, "was made by Fred Getchell and Ole Olson, both of whom formerly worked for me and I consider them thoroughly reliable. They found the pay and located claims on Albert creek in July and worked altogether about 20 days. They shoveled in ten days all told and cleaned up sixty-five ounces and eight pennyweights of gold. The gold looks like that found on Slate creek and Valdez creek.

Mine Coming To The Front

The assessment work for the year on the Silver King property on Aaron Creek, on the mainland, was finished last Thursday and the crew of men that have been working there for the summer returned to town.

The property belongs to the Silver King Co. composed of J. E. Burg, Ludwig Burg Sr., Ludwig Burg Jr., Alfred Burg and Chris Wido, who have four claims that are holding forth promises of being some of the best mining claims in this district. They have a tunnel run 165 feet with a shaft of 14 feet cross cutting the vein and during the past six weeks have found some very fine looking ore which they have sent below to be assayed, the former assays having run from 20 to 40 dollars to the ton. There is about 85 feet more to be driven on the tunnel which will be finished as soon as the opening in the spring, providing the last assays are what they are expected.

The claims are about five miles back from the beach and situated so that a tram could be built from the beach to the claims with only a 12 per cent grade.

The largest share of the work this summer has been surface work of which they have made a good showing. This property is one of the best located in this district and big things are sure to come from that direction during the next season as several other claims along the mainland are being prospected and worked with much more interest than has been shown heretofore.

Rev. Corser Will Take Long Trip

Rev. Corser of St. Phillips Church is preparing to leave on the Spokane for New York City where he will attend the General Conference of the Episcopal Church to convene in that city on October 9th. The Convention will last about seven days after which Rev. Corser will visit his old home at Scranton, Penn. Rev. Corser expects to be gone about six weeks and during his absence the Church will be under the care of Miss Woods with services as before.

Two Cases On The Hill This Week

The past week has seen two cases in the Commissioner's Court. One was Mike Gregeroff, arrested last Monday on the charge of vagrancy and given a fine or 100 days in jail. The other was Jim Adams a native, was arrested Monday evening for disturbing the peace and given 20 days free lodging.

Love Succeeds T. R. Shepard

George J. Love, of Valdez, has been appointed by Judge Brown U. S. Commissioner at that place. He will succeed T. R. Shepard, who was appointed by Judge Cushman to the position about a year and a half ago.

River Boat Is In And Out

Capt. Strong's river boat Winifred arrived from up the Stikine River last Saturday with three passengers for Telegraph Creek. The Winifred reports the river very low the last trip. The boat expected to take a load of powder the last trip but as several persons were waiting for transportation they left the powder for the next trip.

Doc. Couldn't Resist Longer

Ever since the opening of the hunting season, the call of the wild has had its hold on Doc. Shurich until at last he could resist no longer, so last Saturday he journeyed to the flats in company with Mrs. Shurich and Ted Cunningham. They returned Tuesday completely satisfied with the bag.

Doing Work At Cemetery

During the last week carpenters have finished the work of repairing the fence and making other repairs also making the Red Mens cemetery larger. The cemetery is now 400 feet square and is fenced

on three sides. A new tool house 10 x 12 was also built which taken all together makes a much needed improvement in the looks of the place.

Burned To Death In His Cabin

Harry Markusen an old-time resident of the west, was cremated at Unga on the night of September 6, following a drunken debauch indulged in by himself and one Julius Ipson, another sourdough. The two were in Ipson's cabin, next door to A. Komedal's store and hotel, having what they considered a high old time. Mr. Komedal had retired for the night, but the noise in the cabin prevented sleep. He finally got up, intent on putting a quietus to the disturbance. Upon emerging from his home he found the cabin in flames. He asked Ipson who was standing by, if anyone was in the cabin, but could get no coherent reply, due to the man's drunken condition.

Komedal caused the village to be aroused, and got his own fire extinguisher and played on the flames. Others, with extinguishers, joined him. When the flames were quelled the body of Markusen, burned so that the flesh fell from the bones, was found on the cabin floor.—Seward Gateway.

Quite a number of hunters spent Sunday on the flats and returned with well filled bags.

Ham Island Closed Down

The marble quarry at Ham Island of the Vermont Marble Co. was closed down indefinitely last week and the men brought here took the last Dolphin for their homes in the South.

Ham Island has been worked for the past year by the Vermont Marble Co. in conjunction with their quarry at Token but as the marble was of a much inferior quality when compared with the Token marble that the experiment proved a failure hence the closing of the quarry.

A New Business

Another new business was added to Wrangell's growing list this week when W. H. Oliver opened the Wrangell Renovatory in the building formerly occupied by The Nye Jewelry Store.

N. W. League Closes

Seattle, Sept. 29.—The North western baseball league closed yesterday. The teams finished in the following order: Vancouver, Portland, Seattle, Victoria, Tacoma and Spokane.

Supt. Schott and family were passengers south on the Princess May to their winter home in San Francisco.

TOO MUCH OF THAW

The public of the United States are coming to the conclusion that they are getting too much of Thaw. Let us recall the main facts of the Thaw case. A man walks up to another in a place of public amusement and shoots him dead. He is tried for murder. His trial is the sensation of the country for a period of time distressingly long drawn out. He is acquitted of murder on the ground of insanity and is sent to the asylum for the insane. While incarcerated there he makes repeated attempts to regain his liberty, so that his name and affairs are constantly before the public. He makes a sensational escape from confinement. Once again his picture is on the front page of the newspapers, together with the pictures of all his relatives, his wife, or ex-wife, and everybody else who has had anything to do with him. This is how Dr. Frank Crane of New York descants upon the situation: "He is not only famous, but everyone who touches him leaps into the limelight. As a front pager he is several laps ahead of Colonel Roosevelt. The whole lands seems to be consumed with hunger to know all about him microscopically. Why? It is not because of him self, or anything he is or anything he has done. He is simply a degenerate. There are thousands like him hiking to hades full speed in every city. It is not because of his family of distinction. Why, then? Merely and only because of the money possessed by him and his relations. That is what the people are interested

in. We love money, we worship money, and we adore money. The illustrations in the newspapers are of the women in the moneyed set. The Count of Monte Cristo is probably the most popular tale ever told. It is about millions and their power. "That is why readers devour Thaw news. We do not care a whoop about the little runt. But there seems to be a pipe line to him from the thing we care most about on earth—money, and lots of it. And he has never earned a cent.

HE ADVERTISED—AT LAST

There was a man in our town, And he was wondrous wise; He swore (it was his policy) He would not advertise. But one sad day he advertised, And thereby hangs a tale, The ad. was set in quite small type And headed "Sheriff's Sale."

FINISHES THE PACK

P. J. Gorman of the Shakan and Kasau canneries was a local visitor this morning. He is just down from Shakan and reports that the cannery there has gotten up its pack of 45,000 cases of salmon. Kasau too, is through, having put up about 40,000 cases.

Seventy-four pupils attended the Wrangell public school opening day, Sept. 2nd.

A shipment of tin ore valued at \$40,000 was recently brought down from Nome by the steamship Navajo.

WEATHER STOPS WORK

Forest Supervisor Weigle has decided owing to the bad weather of the past week or so, to stop work for this season on the trail the Forest Service is building from tide water to the hot springs above Bailey Bay. The crew of eleven men who have been at work on the trail will be brought to town tomorrow and paid off. The trail is completed as far as the lake, and part of the way around the lake shore, while some work has been done between the lake and the springs. The department will finish the trail as soon as the weather settles in the spring.

First Actress in London.

It was a warm reception that was given to the first French players to appear in London in 1829. Their visit was an utter failure. It was notable, however, for the important innovation which was the chief cause of their unpopularity.

The luckless troupe introduced actresses for the first time on the English stage—"thereby giving just offence to all virtuous and well-disposed persons in this town," wrote Thomas Brande, reflecting the spirit of the playgoer of that time, who was used to seeing boys take the female characters.

These "French women, or monsters rather," were "hissed, hooted and pelted from the stage." The first move against this prejudice was not long delayed, however. Five years later another French company came to London with women players, under royal patronage, and were received "with good approbation" at the Cockpit in Whitehall.—London Graphic.

Forecasting the Weather.

Here are a few hints for forecasting the following day's weather: First of all, look at the northwest for your weather. However threatening the sky may appear, if you see a bit of blue in the northwest you won't have a steady downpour. At the worst it will only be showery.

If the day has been very fine and the blue sky is suddenly speckled over in the evening with little curly clouds then look out for a change of weather. The longer they take to form the longer the time before the change comes about.

A red sun in the early morning is a bad sign, for there will be weather before the next two or four hours are over. Though the sun at sunrise may be absolutely clear, if the eastern horizon is red, or orange, the clouds will roll up and rain probably will fall before night.

Evening red and morning gray Two sure signs of a storm.

School Notes

The volly ball has arrived and the children of Miss Calkin's room practised Tuesday after school. The seventh and eighth grades will practice Thursday evenings.

The grammar room has started work in music and find it very interesting.

Hannah Choquette has entered Miss Calkin's room this week.

The Public School basket ball team has been practicing and expect to play the High School team in a week or so.

The Palmer writing manuals have arrived and rapid muscular movement writing is being practised.

The examinations for September have been completed and we are beginning on our second month of school.

The reports for the first month have been given out. The work has been graded on the daily class work as well as on the examinations.

SUNNY POINT HAS BIG PACK

The Sunny Point Cannery at Sunny Point has made one of the best records of any of the canneries of this locality for the pack this year, having packed some 10000 cases of salmon. The cannery has been under the able supervision of Superintendent Jens Anderson and they figured on a pack of 12,000 cases but as the fish run was very good they went some 4000 over their pack. Most of the pack has already been shipped south.

Sulzer Cares Friends To Worry

New York—The friends of Governor Sulzer are worried over the physical condition of his health, as he remains indoors and does not appear in public when he can avoid doing so. During the recent illness of Mrs. Sulzer he was constantly at home and since her recovery he has refused all invitations of friends, but welcomes them at his home.

His friends believe he is worrying over the notoriety which has been given his wife since the beginning of the impeachment proceedings more than anything which could have happened to him. They say that he has always been impervious to criticisms in the past where he alone was concerned. He is acting against the advice of his friends in refusing to attend the trial personally, as he has always been foremost in the fight and they do not like his retirement at this time.

A Matter of Gender.

The bell of a Scottish church was giving out a very poor tone, and a committee was appointed to inquire as to what was wrong and to report on the best means of putting it right. After an examination the members were divided in their opinion, and the clerk officer, who was in attendance with the keys, was asked his view. "Fine, a ken what's wrang w' the bell," he remarked. "It's a she-yin," meaning that it was of the feminine gender. Pressed to explain, he added, "Its tongue's owre lang—it's needin' to be clippit!" And this turned out to be really the fault. The tongue had become loosened to the extent of an inch or so and was overlapping the curve at the rim and therefore not striking truly.

Dogs of Belgium.

Belgian dogs that are harnessed to carts often work themselves to death. They may enjoy their work for a time, when they hurl themselves into the collar to drag the milk cart (and often the lazy milkman as well as his cans), but they do not enjoy the ensuing paralysis. The sight of a dog dying of starvation in the streets because his paralysis jerked him away from food every time he attempted to take it is not conducive to happy memories of Belgium.

He Didn't Put It Off.

"Gracious!" exclaimed Mr. Staylate. "It's nearly midnight. I should be going pretty soon, I suppose."
"Yes," replied Miss Patience Gonne. "You know the old saying, 'Never put off till tomorrow what you can do today.'"—Philadelphia Press.

Juneau Boys Get Manual Training

While the girls of the seventh and eighth grades and the high school of Juneau are to be given work in domestic science, the boys are given the opportunity to take manual training. This work will be given the boys of the high school from 1 p. m. until 3 on Wednesday afternoons and those of the grades will get it on Monday afternoons during the same hours.

"Take 'Em Off" Says Old Salt

"Keep on shortening sails, girls, and after a while you will be immune from colds."

This is the advice of Capt. James Leslie, of the British steamer Earl of Elgin, who is a strong booster for slit skirts, low necks, and sheep stockings.

"Here's why I believe in 'em," said Capt. Leslie. "One bitter cold morning, while we were in Portescue bay, alongside a lot of icebergs, two natives in a dug-out came alongside.

They were Yangnas, father and son. The father's only garment was a leather belt. The boy wore a dog collar.

"The boy will freeze to death," I said, let's wrap him up in some blankets."

"We did and in a few minutes he fell in a faint.

"He's frozen to death," I yelled. "Get some grog quick."

"The lad's father, however, threw aside the blankets and tossed the boy into the icy water. The boy came to the surface, grinning and happy.

"Yes, siree, I'm for these slit skirts. The girls are right. They know the fewer clothes we wear the less we need 'em."

OLD YUKON RESIDENT DIES AT FAIRBANKS

Andrew Jackson Maiden said to be the oldest white resident of the Yukon Valley at the time of his death, passed away at Fairbanks August 28, and was buried under the auspices of the Pioneers of Alaska, September 4th. He has been a resident of the Yukon Valley for 30 years, and during that time had never been to the coast. He has been a prospector and miner during all the years that he has lived in that country. He is reputed to have sunk more holes to bedrock than any man in Alaska. Maiden was stricken with paralysis in June when on a prospecting trip up to the headwaters of the Big Chena. Upon receipt of the news of his illness, a relief party was sent from Fairbanks, and he was brought to that city and put in the hospital there. His malady proved incurable and caused his death.
